## Managing Mega-Projects: Leadership of Major Infrastructure Projects. New Horizons in Organization Studies

Managing Mega-Projects: Leadership of Major Infrastructure Projects.  
*New Horizons in Organization Studies* - Edward Elgar Publishing | June 2020

**SUBJECT :** Using a narrative approach, this project seeks to present the stories of top managers who have successfully led large infrastructure projects. Originating from eleven different countries, these stories will be collected in an edited book that highlights exemplary approaches regarding the governance of large infrastructure projects.

### **TEAM MEMBERS PER CASE STUDIES :**

- AUSTRALIA ➤ Stewart CLEGG - University of Technology Sydney  
John STEEN - University of Queensland
- AUSTRALIA & NEW-ZEALAND ➤ Shankar SANKARAN - University of Technology Sydney  
DAPHNE FREEDER - University of Technology Sydney
